

ABOUT ME

Hi...I'm Nicola Kane.
I founded Moving
Memories in 2021, after
producing business videos
for 2 years.

I work with families and individuals to create
personal documentary videos about their life
highlights, life lessons and special memories.

WHY SAVE YOUR STORY?

The memories and stories of our lives are
unique to us and make us who we are. After
losing my dear Dad in 2018 without saving
his stories, I realized just how important it is
to save family memories for future
generations.

There's no better way to capture the
emotions and heart of a story than with
video. Facial expressions, voice intonation
and mannerisms bring the stories to life and
show the true essence of a person.
